

## ABCs OF BICYCLE CARE FOR KIDS

Fill in the blanks and label the parts on the bicycle.

**A = AIR**  
**B= BRAKES**  
**C= CHAIN**  
**S = SEAT**

1. Make sure both tires have \_\_\_\_\_. Squeeze them to check.
2. The \_\_\_\_\_ make the bicycle stop. They can be on the handlebars, in the pedals, or both.
3. The \_\_\_\_\_ needs to be on firmly, and needs to be free of rust or dirt, so the bike runs smoothly.
4. Raise or lower the \_\_\_\_\_ so your feet can just touch the ground.
